## MANY CASES OF CHILDREN'S DISEASES

After remaining at the top of the health reports, submitted by Sanitary Inspector George Shorten to the board of health for five months, measles shows no sign of giving place to some other disease in the number of cases reported each month. In his report presented this morning there were 77 cases recorded during the month, with 34 cases still in quarantine. Whooping cough continues to spread. During the month of May there were 42 deaths and of that number 28 were males and 14 females. There were 44 births and the number of boys and girls were the same, 22 of each.

The report follows:  
Scarlet fever, 5 cases reported with 4 now in quarantine.  
Smallpox, 3 cases reported with 1 now in quarantine.  
Typhoid fever, 5 cases reported.  
Whooping cough, 43 cases; 23 cases in quarantine.  
Measles, 77 cases reported; 7 in quarantine.  
Chickenpox, 20 reported cases; 14 now in quarantine.  
Pneumonia, 13 cases reported.  
Tuberculosis, 2 cases.  
Spinal meningitis, 1 case.

## GARDENS BEING ROBBED AT NIGHT

From reports Supt. J. M. Mills has received from the principals of the various schools, the school gardens planted and cared for by the students are being plundered at night by those who hope to reduce the high cost of living at the expense of the small gardeners. When the first report of garden robbing came to the superintendent, he wondered if others were being plundered in the same manner.

A canvass of the schools proved his suspicions to be correct. The principals reported that the children had complained of marauders. Notwithstanding such handicaps, the gardeners have proved a success and the gardeners have sold much early produce from the vacant lots during the past few days. It was not difficult for the principals to find boys and girls willing to attend to the gardens during the summer to insure a large enough crop of late produce for the contest to be held.

## ELECTRIC PUMP IS TO BE USED

The problem of handling excess water in the basement of the Howell building block on Washington avenue, near Twenty-fifth street, will be solved by the use of a centrifugal pump which will be placed in the heavy retaining wall near the curb line. It will be operated by electricity and automatically will work intermittently.

The pump will be placed in a concrete sump, located in the retaining wall and connected with the water supply by pipes and as the water rises to the top of the receptacle the electric motor will start.

The water encountered in the building comes from springs across the avenue east of the Howell block. It percolates through a bed of gravel and is as clear as crystal at the point where it is pumped out.

## NEGRO WAS WITH A WHITE GIRL

Following the declaration of Detective Burke and Chambers, that he had been playing with a white girl in Central park, Joe Carter, aged 45, was taken into custody for further investigation at the orders of Judge W. H. Reeder this morning. The charge against Carter is that of drunkenness.

According to the detectives, Carter was in the park last evening and MIL. dred Camp, a 12-year-old girl, was playfully teasing him by taking off his hat and throwing paper in his face while it is claimed that Carter was encouraging her. The arrest was made, following complaints from others in the park.

Carter stated that he had known the little girl for some time and that she had written letters for him at the barber shop where he worked.

Electricity is now applied to nearly all kinds of power driven machinery.

## GREAT ANIMAL FEATURE

An exceptional picture by the Selig company has been secured for carnival week at the Globe theatre. Selig is noted for great animal features, but this one is pronounced by critics to be the best yet produced. A story of great interest is told by Selig's best actors with "Baby Lillian," four years old, as the star. Her escape from the lions in the jungle by being from a cliff into the water is the climax of many exciting encounters. A great picture for children as well as the older ones.

Monday, Tuesday and Wednesday only, 2, 3 and 4. 10c, children 5c.

## BUSY ON THE CITY SCHOOL REPORTS

Although the schools have closed, the clerks in the board of education offices and Supt. J. M. Mills are busy engaged in attending to school matters. Mr. Mills is attending to the signing of teachers' contracts and checking up principals' reports. The clerks are checking up supplies, preparatory to ordering for the next school year. The high school statistical report and the clerk and treasurer's financial report must be ready for delivery to State Supt. A. C. Nelson by July 1.

As the board selected the text books that are to be used during the next five years at their test book meeting last year it will not be necessary to order new books for the next term. General supplies, however, will be ordered early to ensure their delivery to Ogden in time for the opening of schools in September.

## SPEEDING MUST STOP, SAYS THE CHIEF

Sitting at his desk in the chief's office, Acting Chief of Police Charles Pincock has received so many complaints charging speeding on the part of automobile and motorcycle drivers, that he declared his intention today of asking the commissioners to grant him two special police to do nothing but regulate motor vehicle traffic.

The regular force of patrolmen has been given orders to arrest not only offenders in the business districts, but in the residence districts.

## GRIEVANCES OF TAXPAYERS TO BE HEARD

Taxpayers, having grievances over the assessed valuation placed on their property or desiring a hearing on other questions respecting taxes, will have the opportunity of being heard before the board of county commissioners now sitting as a board of equalization, in room 10, of the court house. Room 10 is the assessor's office.

The commissioners state that they will be pleased to meet taxpayers to settle any difference that may arise, their object being to adjust, according to the law, all claims. The days for the board to hear complaints are June 2, 4, 6, 7, 9, 11, 13, 14, 16, 18, 20, 21 and 23.

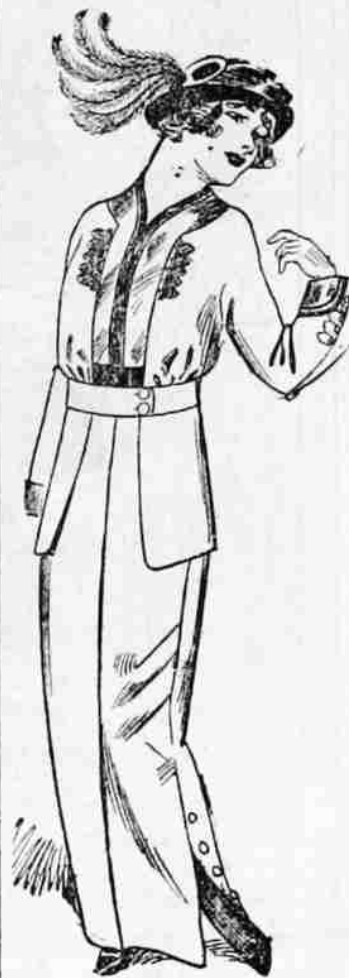

There were but few taxpayers at the first session today. It is anticipated that there will be an unusual number of protests made, as it is claimed by many of the property owners in various parts of the county that valuations have been raised too much. A committee from Huntsville came before the board of commissioners to file protests some time ago but were advised that they would have to wait until the commissioner met as a board of equalization.

## GRADUATES OF DEE HOSPITAL OF OGDEN

The first annual commencement exercises of the Thomas D. Dee Memorial hospital will be held in the Weber academy auditorium Monday evening, June 9, at 8 o'clock. The exercises, to which the friends of the institution and public are invited, will be followed by a reception and a dance.

The graduates are Misses Ethel M. Edwards, Marie Rasmussen, Ruth Harrison, Leota A. Embling and Anna K. Hanson, all of Ogden; Lucille Dunbar of San Francisco, Frances Burrett of Davis City, Ia., and Jean H. Sharp of Evanston, Wyo.

The program will consist of addresses by Dr. E. M. Conroy, Rev. W. W. Fleetwood, David O. McKay and Dr. E. H. Smith. Mrs. Thomas D. Dee will distribute the diplomas and a number of musical selections will be rendered.

The success of the training school of the Dee hospital is one of the big features of the institution and is bringing a great amount of credit and honor to the hospital, its staff and its founders.

A three-year course of training in

professional nursing at the Dee hospital is open to women between the ages of 18 and 30 years.

Instruction is given by the superintendent of nurses and the head nurses assisted by the visiting physicians and surgeons who give a series of lectures each year.

Pupils are received on two months' probation to test their fitness for the work. During this time they are boarded and lodged at the expense of the Hospital association. After being accepted as a nurse in training, pupils are allowed in addition to board, lodging and laundry, \$8 per month during the period of training. This sum is sufficient for the purchase of text books and uniforms, and for other expenses incidental to training. Time is allowed each day for study and recreation and one afternoon off each week and part of each Sunday is given with a vacation of two weeks each year during the summer months.

Upon the completion of the three-year course of instruction nurses receive a diploma of the school entitling them to practice their profession.

## JOS. STRENG IS HEAVY BUYER OF WOOL

Joseph Streng, representing Elsmann Brothers of Boston, on last Saturday purchased the entire wool crop of the herds of Lindsay Land & Live-stock company, totaling over \$8,000. The price paid was 16 cents a pound on board cars at Ogden.

This is the second big purchase made by Mr. Streng this season. A week ago he accepted the clip from the sheep of Mrs. William Jenkins, taking 375,000 pounds on consignment. Mrs. Jenkins known as the greatest woman sheep owner in the United States.
